

Vape Myth Busting Training for Pharmacies

Walsall's local stop smoking services now offer vapes as a smoking cessation aid. Alongside the introduction of vapes, Walsall Public Health have commissioned 'Vape Myth Busting Training' for pharmacies.

ABOUT THE TRAINING

- ✓ Cut through the confusion – get the facts about vaping and the latest evidence-based guidance.
- ✓ Support your patients with confidence – learn how to respond to common myths and questions.
- ✓ Quick and practical – just one hour, fully online, fits around your schedule.
- ✓ Enhance your CPD – gain a certificate and add valuable skills to your professional toolkit.

HOW WILL IT HELP YOU

- ✓ By understanding the real risks and potential benefits of vaping as a smoking cessation tool, clinicians can provide more effective, tailored advice—ultimately improving patient outcomes.
- ✓ The training also enhances professional credibility and ensures consistent messaging across teams, contributing to a more informed and health-focused clinical environment.
